

July 2015

Dear Valued Business Partner:

As you may be aware, TTE, Inc. was acquired by Gowanda Holdings last year with the goal to expand TTE's electronic component offerings to the RF and microwave marketplace while building on TTE's 55+ years as an industry leader in the design and manufacturer of electronic filters. After the acquisition TTE has continued to operate in Los Angeles, California, as TTE Filters, LLC.

Gowanda Holdings is pleased to announce that TTE Filters, LLC will be relocating to upstate New York in early July. TTE will move into a brand new, state-of-the-art manufacturing facility affiliated with Gowanda Electronics (also a Gowanda Holdings company). We are excited about this move and look forward to more partnering opportunities with Gowanda Electronics to leverage their impressive 50+ years of electronics manufacturing success. To date, TTE Filters, in conjunction with Gowanda Electronics, has already introduced a line of Bias Tees to 40GHz, increased the frequency range for Lowpass Filters to 6GHz and rolled out a line of In-Stock Lowpass Chebyshev Filters to 6GHz. And that's just the beginning!

We are excited about the future and look forward to serving you and your filter needs from our new location. Updated contact information is provided below. There is no change to the website or email address.

TTE's Los Angeles telephone and fax will continue to be operational and mail will be forwarded to the new address. Please note that invoicing and payments will be handled by the accounting department in Gowanda. That address is TTE Filters, LLC, PO Box 111, Gowanda, NY 14070 USA.

We appreciate your understanding during the upcoming transition period and will do our absolute best to minimize the impact on lead times and delivery schedules. Please take into consideration TTE's new location and how this may impact transit time and costs for shipments.

Please contact me if you have any questions or need assistance at any time.

Sincerely,
David Zavac
